

Monthly Safety Meeting

We study accidents involving pilot-error, but what about accidents where the pilot does everything right? Yep, there's always the possibility of mechanical failure -- especially when unauthorized parts are installed. What do you do when the unauthorized part fails and wreaks havoc? Uwe Zeizinger (FAASTeam Representative, German Air Force Pilot (ret), ATP/CFII/MEII, and Chief Flight Instructor at Cobra Kai Flight Academy) has prepared a presentation entitled "What the Hell -- My Control-Wheel is Stuck!" Wings credit will be assigned to attendees.

Directions: Drive to 1801 9th St, Wichita Falls.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
